TO : Bob Sheehan

FROM : Pete Henault

(Sgt.) Pete Henault

SUBJECT : PCBs

In my memo to you of May 27, 1977, I indicated that we are identifying some problems with the PCB alternatives that you are purchasing and that we are attempting to get all facts together and eventually write a complete report.

Please let me know when you need a final resolution from us on this matter so that we can get it to you prior to the purchase of any additional PCB alternatives.
